**PATRICIA P. BRISTER**  
**PARISH PRESIDENT**

December 27, 2016

Ms. Henrietta Dobard  
Community Planning and Development Division  
Dept. of Housing and Urban Development  
New Orleans Field Office  
Hale Boggs Federal Building  
500 Poydras St., 9th Floor  
New Orleans, La. 70130-3099

RE: St. Tammany Parish FY2015 Consolidated Annual Performance and Evaluation Report

Dear Ms. Dobard,

Enclosed for you is the FY2015 Program Year CAPER for St. Tammany Parish.

If you have any questions or need further information from our office, please contact Angie Traill at either 985-867-5095 or [astrail@stpgov.org](mailto:astrail@stpgov.org).

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeanne Betbeze", is written over a printed name and title.

Jeanne Betbeze  
Director of Grants

PAT BRISTER  
PARISH PRESIDENT

2015 - 2016

# Consolidated Annual Performance and Evaluation Report

Public Hearing December 14, 2016

## Community Development Block Grant

St. Tammany Parish Government

**5 - Goals and Outcomes**

**Progress the jurisdiction has made in carrying out its strategic plan and its action plan.**

**91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

**Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee’s program year goals.

Goal	Category	Source/ Amount	Indicator	Unit of measure	Expected	Actual	Percent Complete
Residential Rehabilitation	Affordable Housing	CDBG: \$332,000 (\$232,000)	Homeowner Rehabilitation	Sewer Units	20	183	100%
Residential Rehabilitation	Affordable Housing	CDBG: \$150,000 460-07	Homeowner Rehabilitation	Housing Units	10	9	90%
Residential Rehabilitation	Affordable Housing	CDBG: \$114,000 460-08	Rehabilitation Administration	Housing Units	20	32	100%
Transit Vouchers	Non Housing Community Development	CDBG: \$30,000	Public Service Activities not Housing	Persons Assisted	200	73	100%
Homeless Prevention for Families	Homeless Prevention	CDBG: \$75,000	Homeless Prevention	Persons Assisted	15	22	100%
Affordable Housing	Housing Services	CDBG: \$33,000	Housing Counseling	Households Assisted	20	45	100%
Infrastructure	Infrastructure improvements	CDBG: \$193,764	Infrastructure NAMI & Ben Thomas	Project design			

Table 1-Accomplishments Program Year & Strategic Plan PY 2015-2016

**Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

For 2015-2016, CDBG funds were distributed to various agencies to ameliorate the issues of homeless, the lack of affordable housing and the elimination of poverty. Public Service activities offering direct services to the LMI population proved to be very successful such as the Housing and Homeless Assistance Program, New Day

Homeowner Services, and St. Tammany Transit (formerly Go Stat).

Successful collaborations with external programs provide opportunities for leveraging other community resources. LMI homeowners received minor home repairs by leveraging CDBG investments through partnerships with the Department of Energy Weatherization program and the non-profit group, World Changers. Tangible results in the areas of neighborhood stabilization and economic development are fundamental for a community's growth potential and create the foundation for sustainable resiliency to weather the fluctuations in population, economic downturns, and changes in public policy.

Long range planning efforts led to the formulation of a strategy to mitigate water quality issues. CDBG investments were ear-marked to support four new water and sewer infrastructure projects. A targeted short term strategy, the Sewer Repair/Replacement Program, identified LMI households possessing non-compliant wastewater discharge systems. These repairs positively impacted the quality of the discharge water, contribute to a cleaner environment, and improve the quality of life and public health.

The CDBG program can report the number of successful activities which provide services to repeat clients demonstrating the need for such services in the community. Overall 333 Parish residents received 2,981 unique services through CDBG funded programs.

In 2015, CDBG funds were reallocated to the NAMI demolition and rehabilitation projects via a substantial amendment published on January 21, 2016. In the first phase, three Hurricane Katrina damaged structures were demolished. Phase 2 the design work and asbestos abatement is currently preceding, and is expected to be completed shortly. The final phase, expected to be completed in summer 2017, comprises the rehabilitation of one group home structure to be used as a day center for mentally and behaviorally impaired clients. It is anticipated that the facility will be operational by Fall 2017. These CDBG investments will result in decent and safe living conditions for the chronically disabled persons residing on the parish's Safe Haven Campus.

## CR-10 - Racial and Ethnic composition of families assisted

*Describe the families assisted (including the racial and ethnic status of families assisted).*  
**91.520(a)**

St. Tammany Parish does not receive HOME or HOPWA funds.

RACE & Ethnicity	CDBG	HOME	HOPWA
African American/Black	151	N/A	N/A
Asian	2	N/A	N/A
Native America	1	N/A	N/A
White	171	N/A	N/A
Other	8	N/A	N/A
<b>TOTAL</b>	<b>333</b>	<b>N/A</b>	<b>N/A</b>

Hispanic	3	N/A	N/A
Non-Hispanic	330	N/A	N/A
<b>TOTAL</b>	<b>332</b>	<b>N/A</b>	<b>N/A</b>

**Table 2 Table of assistance to racial and ethnic populations by source of funds PY 2015-2016**

**CR-15 - Resources and Investments 91.520(a)**

**Identify the resources made available**

Source of Funds	Source	Expected Amount Available 2016-2017	Actual Amount Expended Program Year 2015-2016
CDBG	HUD Entitlement	\$899,361	\$848,780.95
Other	Community Services Block Grant	\$429,884	\$429,884
Other	Federal Transit Administration	\$2,444,494	\$2,331,374
Other	HUD DRU	\$3,738,827	\$1,648,802
Other	Louisiana Office of Community Development (Program Income)	\$1,015,960	\$105,005
Other	Low-Income Home Energy Assistance Program	\$875,630.73	\$875,630.73
Other	State of Louisiana ESG	\$80,710	\$80,710
Other	Weatherization Assistance Program	\$249,236.91	\$214,357.65

**Table 1 – Resources Made Available**

**Narrative**

The Parish’s Community Action Agency administers the CSBG, LIHEAP, ESG and Weatherization programs. The St. Tammany Transit LMI voucher program is administered jointly by the Health and Human Services (DHHS) and Grants Departments. The Department of Grants also administered numerous CDBG-DR projects that were funded through the HUD-DR office and the Louisiana Office of Community Development Disaster Recovery Unit. These projects included the construction of an Emergency Communications Tower, a public fishing pier, drainage improvements, numerous sewer system improvement projects, and an affordable housing assistance program.

**Identify the geographic distribution and location of investments**

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Parish-wide	100%	100%	

**Table 2 – Identify the geographic distribution and location of investments**

For program year 2015-2016, St. Tammany Parish distributed its CDBG Entitlement funds to organizations and residents living in all sections of the parish. Three public service programs were administered:

1. Housing & Homeless Assistance Program (HHAP) provided emergency rental assistance and utility for homeless prevention services to all parish residents.

2. St. Tammany Transit distributed free vouchers for transportation services.
3. New Day Homeowner Services offered financial fitness, homebuyer training, and individual homebuyer assistance to support affordable housing opportunities.

The Residential Rehabilitation Program comprises three activities. The Sewer Repair and Replacement activity for non-compliant septic systems throughout the parish. The World Changers activity identified scattered sites in the areas of Covington, Folsom, Lacombe, Abita Springs and parts of unincorporated St. Tammany. The Home Rehabilitation Administration Program coordinated the home repairs and weatherization improvements to residents of the parish.

Building upon the recommendations of the 2014 Watershed study, CDBG investments were directed to environmental, engineering and design, and master planning services for water and sewer infrastructure projects. Two North Slidell area waterlines are scheduled for completion in Summer 2017. A master planning consultant was hired for the Ben Thomas neighborhood near Slidell, on the east-side of the parish needing infrastructure improvements. Design work for a community sewer project is pending final plan review. External funding sources are being sought to fund the construction phases of these projects.

A new collaborative effort between the Departments of Environmental Services and DHHS was established to leverage CDBG & EPA funds for neighborhoods identified as major hot spots for non-source pollution. CDBG funds were allocated to repair and/or replace non-compliant septic systems with individual mechanical treatment systems in neighborhoods throughout the Parish.

In response to the behavioral health crisis, St. Tammany Parish seized the opportunity to revive the Southeast Louisiana Hospital site and create a new "Safe Haven" behavioral health campus. In collaboration with NAMI, four Hurricane Katrina damaged buildings were demolished. The rehabilitation of a day center to be utilized by persons with chronic mental illness is in design.

## Leveraging

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

As part of a multi-year Federal Transportation Agency grant, \$8,000,000.00 has been allocated to fund a local transit system. Each year CDBG funds are leveraged to provide services for low to moderate income clients through the St. Tammany Transit voucher program. Free transportation vouchers are distributed to local non-profit and government agencies who distribute the vouchers to their low- to moderate-income clients. For PY 2015-2016, monthly transit vouchers were distributed for 1128 daily and 141 unlimited monthly vouchers.

DHHS leverages their resources with other programs administered by the department. The St. Tammany Parish Public Health Millage funds are used to supplement the operating budgets for non-profit organizations including Covington Food Bank, and Good Sams emergency support for seniors. This millage is also used to fund needed health care facilities and programs which were eliminated when the State closed public health units. The Community Action Agency (CAA) leverages multiple sources of funds for its Emergency Support Grant (ESG), Supportive Housing Program (SHP), Low Income Home Energy Assistance Program (LIHEAP), and Community Service Block Grant (CSBG).

DHHS also leveraged its CDBG funds with St. Tammany Parish Departments of Environmental Services (DES) and Development-Engineering (DoD-E) in an effort to optimize assistance to LMI populations targeting their respective grant projects. DHHS is providing CDBG funds to repair and replace homeowner sewer treatment units for qualified LMI residents. DES is conducting individual homeowner sewer treatment unit Inspections and Education. DoD-E is coordinating sampling to demonstrate water quality improvement from the Inspection and Repair and Replace Programs. DES anticipates receiving approximately \$742,500.00 over three years for Pollution Source Tracking in three watersheds locations.

<b>Match Contribution for the Federal Fiscal Year</b>								
<b>Project No. or Other ID</b>	<b>Date of Contribution</b>	<b>Cash (non-Federal sources)</b>	<b>Foregone Taxes, Fees, Charges</b>	<b>Appraised Land/Real Property</b>	<b>Required Infrastructure</b>	<b>Site Preparation, Construction Materials, Donated labor</b>	<b>Bond Financing</b>	<b>Total Match</b>

**Table 3 – Match Contribution for the Federal Fiscal Year**

**CR-20 - Affordable Housing 91.520(b)**

**Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.**

**Discuss the difference between goals and outcomes and problems encountered in meeting these goals.**

DHHS and CAA homeless prevention programs have seen a rise in rental rates, which puts further financial strain on families. Since area incomes are not keeping pace with the cost of living, families are consolidating households, resulting in multiple family members living in crowded conditions. DHHS collaborates with a number of non-profit organizations to deliver housing solutions.

The Housing and Homeless Program (HHAP) offered three months of housing and utility assistance for homeless families. This program successfully stabilized 22 families and exceeded its goal of 15, while enabling adults to find suitable work. St. Tammany Parish CDBG residential rehabilitation programs addressed the sustainability, affordability, and substandard housing issues that impact parish LMI homeowners. Its CAA provided emergency funds to help families with rental, mortgage and/or utility assistance payment to prevent homelessness. These programs also help to alleviate poverty by enabling families to achieve sustainability, self-sufficiency, and in some cases, stability of home ownership.

**Discuss how these outcomes will impact future annual action plans.**

CDBG funds will be targeted to fill the financial gaps for local services providers enabling them to continuously deliver services to their LMI clients. The Community Land Trust program, previously funded by CDBG-E and currently funded through CDBG –DR, enables low to moderate income households to purchase a home and reduce their mortgage payments.

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

<b>Number of Persons Served</b>	<b>CDBG Actual</b>
Extremely Low-income	170
Low-income	74
Moderate-income	89
<b>Total</b>	<b>333</b>

**Table 4 – Number of Persons Served**

St. Tammany Parish CDBG Entitlement Program is reporting 333 unduplicated beneficiaries, of whom are 100% low to moderate income. All programs are designed to benefit low to moderate income families. According to the Community Data Center study, St. Tammany rents are the highest in the metropolitan New Orleans region. Twenty percent of St. Tammany renters experience a severe cost burden of 50% of their income on rents and the median gross rent is \$1,005.00 per month. Contrary to the need for affordable units, the newly constructed units target higher income families. Since 2005, over 1,300 new luxury-style apartments were built in the parish.

For this reason, our programs are designed specifically to aid these families chronically living with poverty and struggle to find affordable housing. While home ownership in St. Tammany Parish exceeds the national average of 78% vs 63%, homeowners do experience a severe cost burden of 9%, consistent with the national average of 10%.

***CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)***  
***Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:***

***Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs***

CDBG staff participate in the monthly meetings of the Commission on Families, Northlake Homeless Coalition and the St. Tammany Housing and Homeless Alliance. These meetings help parish staff stay current with the issues that are affecting the homeless population and the organizations that serve them.

A successful outcome of the St. Tammany Housing and Homeless Alliance efforts is the establishment of a local affiliate of the national Family Promise organization. The local chapter was successfully launched in May 2015 with assistance provided by the Public Health Millage and CDBG-DR funds. Family Promise provides shelter, case management, life skills education, and transportation assistance for homeless families. The program is designed to ensure children attend school, families stay together, and case management guides them to self-sufficiency.

The Homeless and Housing Assistance Program (HHAP), initiated in 2015, successfully helped 22 families by providing rental and utility assistance for 3 months. Families also participated in money management classes. Through intensive case management, 90% of the families have achieved self-sufficiency.

***Addressing the emergency shelter and transitional housing needs of homeless persons***

The Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (HEARTH Act) requires Continuums of Care (CoCs) to develop a centralized or coordinated process designed to coordinate program participant intake, assessment, and provision of referrals. St Tammany Parish Community Action Agency (CAA) has been working in a concerted effort with our CoC, the Northlake Homeless Coalition, by participating in the coordinate access system. This is to ensure that this population is identified, assessed for vulnerability, and provided with real strategy to ensure housing stability. The goal being people have a fixed address and housing that is appropriate, and includes required supportive services as needed.

In order to address the needs of homeless persons, the Parish has provided rental, mortgage and utility assistance directly to clients in need, and has provided transitional and supportive housing to those who have become homeless.

CAA helps eliminate barriers to affordable housing for homeless families with children by providing a Supportive Housing Program (SHP) and the Emergency Solutions Grant (ESGP). While providing rent and utility assistance, these programs also help adults gain job skills, education, permanent employment, parenting skills, counseling, day care for children, and any other services deemed appropriate that will lead to self-sufficiency of the family. As the families develop stability and no longer need the financial services, CAA continues a relationship with them so they are not isolated from the community again.

In addition to in-house efforts to reduce homelessness, DHHS staff members are active participants in the St. Tammany Housing and Homeless Alliance which was an integral part of developing a local Family Promise chapter. The Alliance focuses on case management and permanent solutions to homelessness. DHHS also participates in the Northlake Homeless Coalition meetings and initiatives, and St. Tammany Parish's CAA manager serves on the board.

HHAP, in its second year, successfully helped 22 families by providing rental and utility assistance for 3 months. Ten families also participated in money management classes and intensive case management. CAA reports that 90% of the families have achieved self-sufficiency.

***Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living. This includes shortening the period that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.***

Non-profit organizations in the parish have provided transitional housing to homeless persons. The Northshore branch of Volunteers of America receives HUD funds that are used to provide supportive and transitional housing to the homeless. These funds are distributed to homeless individuals and families throughout the Parish and can be used to provide transitional housing.

CAA helps families make the transition to permanent housing by eliminating barriers to affordable housing for homeless families with children through SHP. Program participants will have the opportunity to gain employment and soft skills necessary to live independently. DHHS staff members actively participate in the St. Tammany Housing and Homeless Alliance which focuses on immediate needs, lack of sheltering options, and also removing barriers to affordable housing and permanent solutions to homelessness.

Low Income Home Energy Assistance Program (LIHEAP) funds provided utility payment assistance to low-income homeowners to avoid service disconnections. LIHEAP, World Changers, and both House Repair Programs help prevent homelessness by making housing sustainable. St. Tammany Parish has partnered with the non-profit organization, Project Homecoming, to address the home repair needs of the disabled, elderly, and low-income populations. Through the Residential Rehabilitation program, the Parish provides home repairs and weatherization assistance to low- to moderate-income homeowners. The elderly, disabled, large families and those of very low income status receive priority assistance. This program also allows for handicap accessibility improvements to be performed.

St. Tammany Parish provides referrals to the homeless centers, such as Safe Harbor for women who are survivors of domestic violence, Sunshine House for those with mental illness, and Miramon Center for homeless males, along with other shelters that may open during the project period. Parish funding priority will be given to shelters with supportive services that serve victims of domestic violence, the severely mentally ill, and substance abusers. Helping house the homeless and providing assistance that will help them achieve independent living status will be given priority.

St. Tammany Parish Government is addressing the needs of the homeless population through the active participation in groups that work to end homelessness. The Housing and Homeless Alliance serves the homeless by actively addressing the homeless/sheltering needs of the Parish. Through coordination with DHHS and local organizations, the Housing and Homeless Alliance has established a faith based family shelter initiative where homeless families could stay together and rotate through a series of church-run mini-shelters. DHHS staff members also actively participate in the Northlake Homeless Coalition and the CAA Manger serves on the board. The NHC has developed a 10-year plan to reduce chronic homelessness.

St. Tammany Parish supports the development and operation of permanent supportive housing for the mentally ill by providing Public Health Millage funds to the National Alliance on Mental Illness (NAMI) St. Tammany. Funding received by NAMI St. Tammany is used to support the operation of their housing units for the mentally ill. NAMI St. Tammany has two housing options: group homes and apartments. The NAMI St. Tammany apartments are permanent supportive housing for persons who are able to live independently. The housing manager is on site during regular business hours and helps coordinate transportation and other supportive services.

DHHS continues its partnerships with Florida Parishes Human Services Authority and the Northlake Homeless Coalition to develop additional permanent supportive housing options for persons with mental disabilities as the mentally ill are a large segment of the homeless population. NAMI St. Tammany runs and operates both group homes and

apartment homes that serve the mentally ill who might otherwise be homeless due to their conditions. NAMI provides case management and support to all who participate in their programs.

Another shelter for homeless referrals, Giving Hope Retreat is located near Hwy 433 and 190 in Lacombe, at the site of the former K-Bar-B youth ranch. The location was acquired by New Orleans Mission Foundation in May 2015, and targets homeless veterans with the intention of providing a safe location for respite and rehabilitation. The facility delivers transitional case management to enable veterans to return to self-sufficiency and productivity. The types of services available are vocational and education training, behavioral therapy, and medical services.

***Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs; or those who are high-risk for homelessness. High-risk persons are those recently discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions).***

ESG funds are administered by CAA to provide homeless prevention assistance through rent or mortgage assistance. LIHEAP funds were used to provide utility assistance to low-income homeowners so that their homes would be made comfortable in the summer and winter. LIHEAP, World Changers, and both House Repair Programs help prevent homelessness by making housing sustainable. St. Tammany Parish has partnered with the Project Homecoming to address the home repair needs of the disabled, elderly, and low-income populations. Through the Residential Rehabilitation program, the Parish provides home repairs and weatherization assistance to low- to moderate-income homeowners. The elderly, disabled, large families and those of very low income status receive priority assistance. This program also allows for handicap accessibility improvements to be performed.

## **CR-30 - Public Housing 91.220(h); 91.320(j)**

### ***Actions taken to address the needs of public housing***

Public Housing funds of St. Tammany Parish are controlled by two communities, Covington and Slidell Housing Authorities. Neither is part of the Parish's Consolidated Plan. DHHS invited both authorities to participate in all activities for fair housing, community needs assessment focus groups and outreach events, and public hearings. For the Community Needs Assessment, DHHS made special efforts to receive input from both authorities. DHHS continues to seek better communication with both housing authorities and attempts to collaborate with both agencies to combat housing deficiencies for low-income families.

### ***Actions taken to encourage public housing residents to become more involved in management and participate in homeownership***

St. Tammany Parish CDBG also works with local non-profit organizations to increase the number of affordable and decent housing units within the Parish. New Day Homeownership Center offered homeownership counseling for public housing residents seeking the option of home ownership. In addition, homeownership counseling is offered to all parish residents. The mission of New Day is to provide decent, safe, and affordable housing by supporting their efforts and programs. Habitat for Humanity also operates homeownership centers and provides education and training for public housing resident and all low-income persons to assist in purchasing affordable homes.

DHHS provides resources and referral information to public housing residents and all citizens and local organizations who contact the office looking for resources. This information is posted on the Parish's website and regularly updated.

### ***Actions taken to provide assistance to troubled PHAs***

There are two public housing developments in St. Tammany Parish in the municipalities of Slidell and Covington. Slidell receives its own CDBG allocation and is responsible for the Housing Authority. Covington Housing Authority is in good standing. Through the Housing and Homeless Alliance and the Commission on Families, successful outreach efforts to establish better communication and collaboration are possible.

## **CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)**

***Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)***

Overall, affordability is a barrier to homeownership. The cost of home ownership can be expensive in St. Tammany Parish compared to other Louisiana parishes. The median price of a house in St. Tammany is \$194,000.00 and the median household income is \$60,799.00. In comparison, on the state level, the median price of a house in Louisiana is \$138,900.00 and the median household income is \$44,874.00. The high costs of land, elevation requirements, homeowners insurance, and for some areas, of flood insurance, increase the barriers to home ownership. Renters also experience a high cost burden. Twenty percent of renters pay more than 50% of their income for housing. The median gross rent is \$1,005.00 per month. We anticipate receiving new housing data from the community needs assessment commissioned in 2016.

Several housing related activities were designed to overcome the barriers to affordable housing. Residents successfully completing the Homeless and Housing Assistance Program (HHAP) are directed to the homeownership centers as part of the pathway from homelessness to self-sustainability and home ownership. These homeownership centers provided home buyer training and Individual Development Account (IDA) information to families seeking to stabilize their housing situation and aid in the prevention of homelessness. These services include pre-purchase counseling, credit repair, money management classes, and home buyer training classes.

### Community Land Trust

The Northshore Housing Initiative (NHI), St. Tammany Community Land Trust, is tasked with developing more affordable housing. NHI also received CDBG funds from the Louisiana Office of Community Development Disaster Recovery Unit that are used for the acquisition of the land. NHI purchases the land while the home buyer finances the cost of the house (less the cost of the land) making the purchase more affordable. For three years, CDBG Entitlement funds were used to supplement the salary and benefits of the NHI's executive director who provided assistance to the home buyer before, during and after the home buying process. NHI helps the LMI home buyer locate a home or property, seek financing, and receive all the applicable education and home buyer counseling services.

### The Biggert-Waters Act (BWA)

St. Tammany is a recipient of Hazard Mitigation and Severe Repetitive Loss funds from FEMA. The Parish uses these funds to assist homeowners in elevating their homes to the appropriate level as indicated by FEMA. Ideally, this will help prevent certain homes from becoming unaffordable due to the new BWA laws.

### NIMBYISM

Many of the Parish's elected officials agree that there is a need for affordable workforce housing in our community. The forthcoming Community Needs Assessment and Affirmatively Furthering Fair Housing studies will provide data and guidance to develop anti-Nimbyism strategies. Toward the goal, a 4 part educational campaign for first time homebuyers was developed by St. Tammany Parish's Public Information Office, the Northshore Housing Initiative and New Day Homeownership Services and was broadcasted via Cable Access Television. Increasing the number of community focused activities, such as Farmer's Market's, neighborhood festivals highlighting local culture and flavor, and grass roots efforts to address local issues, unite the array of communities and provide opportunities to reduce barriers, facilitate community networks and develop positive working relationships to dispel preconceived prejudices.

### High Cost of Land

The Parish is collaborating with NHI by providing non-entitlement CDBG funds received from the State Office of Community Development. These funds enabled NHI's Community Land Trust Program to provide financial assistance to qualified homebuyers for the purchase of homes by covering the cost of and retaining ownership of the land on which the home resides. This effort decreases the purchase price for the homebuyer and makes the home more affordable to future buyers.

### HMGP

The Hazard Mitigation Grant Program provides funds to enable homeowners to elevate their homes in areas of the Parish which were hardest hit by hurricanes. By elevating a home, a homeowner can reduce the expense of their FEMA flood insurance. This allows families to remain in the homes, and protect their asset and investment, while preventing the permanent de-population of flood prone neighborhoods and ensuring a healthy and vibrant community. Many of these communities are populated by long term residents who have been forced to evacuate each time a major storm has impacted the area. By providing the option of elevation, families who have experienced repeated flooding will now be able to return home quickly and resume to their normal activities.

***Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)***

Community Action Agency (CAA) helps eliminate barriers to affordable housing for homeless families with children through its Supportive Housing Program (SHP). This program helps adults gain job skills, education, permanent employment, parenting skills, counseling, day care for children, and any other services deemed appropriate that will lead to self-sufficiency of the family. As the families develop stability and no longer need the financial services, CAA continues a relationship with them so they are not isolated from the community again. CAA uses funds from its Emergency Solutions Program (ESP) and SHP to assist homeless families and individuals in securing housing through rapid re-housing.

DHHS will continue to provide resource and referral information to public housing residents and all citizens and local organizations who contact the office looking for resources. This information is posted on the Parish's website and regularly updated.

***Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)***

DDHS staff has purchased lead paint testing equipment used for the Weatherization Assistance Program. In order to reduce lead-based paint hazards, the parish distributes informational lead-based paint brochures to any person or family who received housing, weatherization, or public assistance from the Parish. Lead-based paint hazard information was also posted in all Parish offices that are open to the public. Public libraries and non-profit organizations have the option to post and distribute this information.

***Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)***

CAA helps eliminate barriers to affordable housing for homeless families with children through SHP. This program helps adults gain job skills, education, permanent employment, parenting skills, counseling, day care for children, and any other services deemed appropriate that will lead to self-sufficiency of the family. As the families develop stability and no longer need the financial services, CAA continues a relationship with them so they are not isolated from the community again. CAA uses funds from ESP and SHP to assist homeless families and individuals in securing housing through rapid re-housing.

The Housing and Homeless Program offered three months of housing and utility assistance for the homeless families. This program successfully stabilized families while enabling adults to find suitable work. These programs have seen a rise in rent, which put a further financial strain on the families with limited income. Families are consolidating households, resulting in multiple family members living in crowded conditions.

The Parish has been awarded \$10,914,916 from CDBG-DR Hurricane Isaac allocation for projects to establish a local community college and cultural arts district, thus enabling local students and residents the opportunity to advance necessary skills for the high

skill/high wage jobs of the future. CDBG-DR funds are also being used to support program delivery for Family Promise.

DHHS will continue to provide resource and referral information to public housing residents and all citizens and local organizations who contact the office looking for resources. This information is posted on the Parish's website and regularly updated.

**Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

The Grants Project Manager- CDBG regularly updates the Administrative Manual to keep current on the latest updates from HUD and from other related governmental agencies.

The Parish initiated a Process Improvement Task force in December 2013 to address inefficiencies in standard operating procedures. This process is intended to identify areas of operations for improvement and deliver high quality services to the tax paying public.

In order to ensure compliance with programs and comprehensive planning requirements during the last year, the Parish has completed the following:

- Staff attended four HUD trainings and 41 conferences
- Evaluated and revised policies and procedures
- Sought technical assistance from CDBG consultant and HUD representatives
- Developed standardized checklists and forms
- Monitored subrecipients monthly through reporting
- Communicated monthly and provided technical assistance to subrecipients regarding their progress in reaching their goals
- Completed the 2015 – 2016 Annual Plan
- Held two public hearings, six community needs assessment public meetings, three focus groups. All comments were recorded.

***Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)***

There are two public housing developments in St. Tammany Parish in the municipalities of Slidell and Covington. Slidell receives its own CDBG allocation. Through the Housing and Homeless Alliance and the Committee on Families, successful outreach efforts to establish better communication and collaboration are possible.

DHHS will continue to provide resource and referral information to public housing residents and all citizens and local organizations who contact the office looking for resources. This information is posted on the Parish's website and regularly updated. In accordance with the planning process, two public hearings six community needs public meetings, and three focus groups, and parish wide survey were held during the Plan

development stage. Meeting notices for the public hearings were publicized in the **St. Tammany Farmer** (the official St. Tammany Parish journal) and on the Parish's website. E-mails were also distributed to local government agencies and non-profit organizations to alert them of the hearings as well. The hearings were in the afternoon and evening hours on different days of the week in an effort to accommodate both those who attended during working hours on behalf of their employers and those who attended after working hours as Parish citizens. An additional 30 day public review process was provided for the public to have a chance to review and comment upon the Annual Action Plan document before it was sent to HUD.

***Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)***

St. Tammany Parish is in process of revising its Fair Housing Policies as directed by HUD.

To date it has found three primary impediments to fair housing. These impediments are:

1. Limited choice in affordable housing due to unit availability;
2. Negative public opinion of affordable housing; and
3. A lack of public information regarding fair housing and housing assistance.

These impediments to fair housing are all currently being addressed by either the Parish or by other institutions or organizations who intend to create more fair and affordable housing within the Parish.

The Parish currently has a fair housing ordinance. Through seminars and regular communication with the Greater New Orleans Fair Housing Action Center, DHHS was able to bring more information about Fair Housing to the business community and residents throughout the parish. In addition, local non-profit organizations and government municipalities have formed a St. Tammany Housing and Homeless Alliance which DHHS and CAA actively participate in. This Alliance was created to specifically address issues in St. Tammany Parish such as this impediment to fair housing and the others that exist in our jurisdiction.

CDBG staff continue to seek opportunities to deepen their knowledge of Fair Housing by attending seminars to learn more about laws and compliance. Residents are able to obtain information about housing rights and counseling through referrals and literature available through the DHHS office. The Parish has Fair Housing posters advertised in government buildings around the area. Calls received by DHHS with questions about housing assistance are referred to an organization that is able to help them. Program flyers are available in both English and Spanish, to those who may be eligible for the

housing repair assistance. Additionally, DHHS and CAA staff members participate in coalitions, alliances, and networking groups to help address this problem.

Through our Residential Rehabilitation program, we have historically partnered with local non-profit organizations who have provided repairs to the most vulnerable segments of our community: the elderly, the disabled, families with children, and households with limited incomes that are at a higher risk of housing discrimination. Through our programs and partnerships, the collective outreach efforts reflect a deep knowledge and comprehensive experience in providing community based rehabilitation.

When an applicant applies for assistance, a prioritization of the persons is performed, assessing the resources available to their organization, and evaluating their ability to provide the required repairs. In addition, the Parish's home repair and weatherization programs, targets health and safety issues for owner occupied residences. Of the total residents receiving benefits from CDBG-funded programs, 100% are extremely low or low-income individuals and families.

### ***CR-40 - Monitoring 91.220 and 91.230***

***Description of the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements***

In order to ensure compliance with programs and comprehensive planning requirements during the last year, the Department of Health and Human Services has completed the following:

- Four (4) staff attended HUD trainings and forty one (41) conferences/webinars related to community development;
- Evaluated and revised policies and procedures;
- Sought technical assistance from CDBG consultant and HUD representatives;
- Developed standardized checklists and forms;
- Monitored subrecipients monthly through reporting and annual site visits;
- Communicated monthly and provided technical assistance to subrecipients regarding their progress in reaching their goals;
- Completed the 2015 – 2016 Annual Plan;
- Held two public hearings, six community needs assessment public meetings, and three focus groups. All comments were recorded.

### ***Citizen Participation Plan 91.105(d); 91.115(d)***

***Description of the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.***

The three branches of the Department of Health and Human Services (DHHS) – CDBG, Public Health, and Community Action Agency (CAA) - and St. Tammany Parish staff maintain consistent communication throughout the year with local organizations that have specific interests in on-going efforts to address the community's concerns regarding workforce housing, neighborhood improvement, and economic opportunities. The data gathering process occurs throughout the year. In preparation of the Annual Action Plan, public hearings, emails, dialogues, formal and informal gatherings, and one on one meeting was utilized to generate discussions and comments which ultimately facilitated the development of the plan.

St. Tammany Parish Government adopted a Citizen Participation Plan in 2008 that is currently still in use. In these meetings, the summary of the Annual Action planning process was presented, and opportunities for citizen input was allotted. Written, phone-

in, and e-mailed comments were also encouraged. This year, two public hearings were held in order to solicit community input:

- July 13<sup>th</sup>, 2016 at the Parish Council Chambers
- December 14<sup>th</sup>, 2016 at the Parish Council Chambers

In accordance with the planning process, two public hearings were held during the planning and development stages. Meeting notices for the public hearings were publicized in the ***St. Tammany Farmer*** (the official St. Tammany Parish journal) and on the Parish's website. E-mails were also distributed to local government agencies and non-profit organizations to alert them of the hearings as well. The hearings and public meeting were in the morning, afternoon and evening hours on different days of the week in an effort to accommodate both community representatives and parish residents who attended during working hours. Meetings were also held after working hours for folks unable to attend during the daytime. An additional 30 day public review process was provided for the public to review on the parish website and comment upon the Annual Action Plan document before it was sent to HUD.

Input from the community contributed to the establishment of housing and community development goals. Parish staff reviewed public input and comments as they were submitted. Staff weighed the priorities of parish administration in conjunction with citizen input, and then presented a proposed project plan to parish administration for consideration and approval. A draft of the Annual Action Plan and projects proposed for the Annual Action Plan were posted on the Parish's website on July 7, 2016 and summaries were presented at a public hearing held that evening. A 30-day comment period ran through August 8, 2016. Citizens, public agencies, or other interested parties wishing to comment on the plans can do so by e-mail or by mail to DHHS.

## **CR-45 - CDBG 91.520(c)**

***Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.***

In 2013-2014, the parish allocated \$522,000.00 of CDBG funds to address some of the areas in need of infrastructure improvements that were highlighted in the Watershed Management study, completed in June, 2014. The study was commissioned to identify specific sites and neighborhoods where outflow of contaminated water is evident. As a result, the parish will leverage its funds to provide sewer upgrades in the Slidell Manor and Ben Thomas neighborhoods. Waterline improvements will be completed in the Alton and the Ben Thomas neighborhood in Summer 2017.

The emerging behavioral health crisis has prompted the parish to take considerable note of the need for a comprehensive system of behavioral health care. In addition to funding the demolition and rehabilitation of the National Alliance on Mental Illness (NAMI) facilities, the parish has purchased the Southeast Louisiana Campus in May 2015. In November, St. Tammany Parish announced the purchase of Northlake Behavioral Health, as part of its vision of developing the Safe Haven campus. Ultimately, the campus will be designed as a place where behavioral health care clients can find the appropriate care and support to begin their path to recovery. The Northlake Behavioral Health is currently serving 129 patients, and employs 345 people.

**2015 - 2016**

**ST. TAMMANY PARISH – ANNUAL PLAN CDBG PUBLIC MEETING**

**DATE OF MEETING:** Wednesday Thursday 14, 2016      **TIME:** 3:30 pm

**LOCATION:** Council Chambers, Mandeville, La.

**MEETING ATTENDEES:** See attached attendance sheet

**Minutes of meeting:**

Alexandra Wesley-Smith, the St. Tammany Parish CDBG Program Manager opened the meeting, allowed audience members and Parish staff to introduce themselves (4 persons in attendance), and then made a short presentation about the Parish's CDBG program and provided material summarizing the types of activities and projects that the Parish has been providing with CDBG funds (see attached hand-outs). Ms Wesley-Smith stated the amount of funding for the FY 2015-2016 year was \$920,118. The National Objectives were also summarized.

Ms. Wesley-Smith then summarized the investment of funds by category that the Parish implemented in 2015-2016. This includes general administration, parish-wide residential rehabilitation, public service projects (at no more than 15% of the annual budget), infrastructure improvements, homeless prevention, and transit vouchers.

Attendees were also encouraged to send any written comments into the Community Development office and to look on the Parish's website for the CAPER.  
The meeting adjourned at 4:20 pm.

## **Public Hearing for CDBG CAPER FY 2015-2016**

**Dates: December 14, 2016 Time: 3:30 pm**

**Location: St. Tammany Parish Council Chambers**

### **AGENDA**

1. Welcome –Alexandra Wesley-Smith, Program Manager, CDBG/Housing
2. Introductions of DDHS staff, elected officials & community leaders
2. Purpose of Public Hearing-
  - To inform the public that the Consolidated Annual Performance Evaluation Report for FY 2015-2016 CDBG funds will be submitted to the funding agency: US Department of Housing and Urban Affairs
3. Explanation of the Use of CDBG funds
  - National Objectives: Priority goal is low to moderate income; 70% of CDBG funds must be used for LMI; Urgent need or Elimination of Slum/Blight. In St. Tammany Parish 100% of funds are directed to LMI households.
  - Eligible Activities: Area benefit activities, limited clientele activities; housing activities, or job retention or creation activities
4. Projects funded in 2015-2016- see list
5. Explanation of funding for FY2016-2017.
  - Funding for FY2016-2017 = \$899,361.00
  - 2% less than FY2015-2016. Goal is to do more with less. Opportunities to leverage investments from the non-profit and/or private sector.
    - Residential Rehabilitation. Parish wide.
    - Public Service Projects. Parish wide Homeownership Center.
    - Infrastructure Improvements
    - Homeless Prevention and Service
    - Planning & Program Administration.
    - Transit Vouchers.
    - Rehabilitation of NAMI facilities for disabled persons.
    - Support improved water quality by replacement/repair of non-compliant sewer systems.

**Consolidated Annual Performance and Evaluation Report**

St. Tammany Parish will hold a Public Hearing regarding the 2015-2016 Program Year Consolidated Annual Performance and Evaluation Report (CAPER) at 5:00 pm on December 14, 2016 in the Council Chambers, 21490 Koop Drive, Mandeville, LA 70471. This meeting is being held to present the CAPER to the residents of St. Tammany Parish and to receive comments and questions regarding projects, funds, and activities.

The CAPER provides detailed information on the actual accomplishments of the Parish Government's CDBG program and is made available to provide our residents with an opportunity to evaluate the program on an annual basis to ensure that the priorities and objectives identified in the HUD-approved Consolidated Plan are being met.

All residents of the Parish of St. Tammany are encouraged to attend this meeting. Accommodations will be made for persons with disabilities and non-speaking individuals

provided that five days notice is given to the Department of Health and Human Service.

Copies of the report may be reviewed online on the St. Tammany Parish Department of Health and Human Services' CDBG Web page at [http://www.stpgov.org/housing/#GDBG\\_Public\\_Notices](http://www.stpgov.org/housing/#GDBG_Public_Notices) and copies will be provided to anyone who requests a copy by calling 985-898-3074.

Report

The St. Tammany Parish Department of Health & Human Services has completed its Consolidated Annual Performance and Evaluation Report (CAPER) for EY 2015-2016 for the Community Development Block Grant Program (CDBG). The purpose of the CAPER is to provide St. Tammany Parish with an opportunity to evaluate its overall progress on an annual basis in carrying out priorities and objectives identified in the HUD-approved Consolidated Plan and to report its progress to the U.S. Department of Housing and Urban Development (HUD) and the citizens of St. Tammany Parish. St. Tammany Parish actively encourages citizen input and feedback.

The Report provides detailed information on actual accomplishments and is available for public examination and comment for 15 days as required by HUD reporting requirements. Residents of St. Tammany Parish are invited to comment

on the Parish's proposed Consolidated Plan from December 1 until December 20, 2016 at 4:30 pm.

Copies of the report may be reviewed online on the St. Tammany Parish Department of Health & Human Services' web page located at [http://www.stpgoy.org/housing/CDBG\\_Public\\_Notices](http://www.stpgoy.org/housing/CDBG_Public_Notices) and copies will be provided to anyone who requests a copy by calling 985-898-3074.

Citizens may submit their views and proposals until December 20, 2016 by phone (985) 898-3074 or in writing to:

**PUBLIC NOTICE**  
**CDBG Substantial Amendment to the 2013-2017 Consolidated Plan & 2015 Annual Action Plan Program Year 8; Amendment #1; Reprogramming of funds for Minor Home Repair**  
**Summary:**  
According to St. Tammany Parish's Citizen Participation Plan and Federal Regulations, changes made in locating St. Tammany Parish's Community Development Block Grant (CDBG) program funds constitute a substantial amendment to the Consolidated Plan.  
CDBG funds will be re-allocated to these funding for dental rehabilitation projects and activities outlined in St. Tammany Parish's 2015-2016 Annual Action Plan. CDBG funds in the amount of \$2,237,000 will be re-allocated to the Home Rehabilitation project allows:  
• North - Housing Initiative Covington Gar. Infrastructure: 1,000,000  
• NAMI - St. Tammany Handicap Center Renovation: 236,000  
• St. Tammany Infrastructure Funds (dedicated in year 2016): 100,000

All funds will support affordable housing activities benefiting low- to moderate-income persons. Project locations will be parish-wide for households that are income eligible, based on CDBG guidelines.  
**Fiscal Impact:**  
There is no fiscal impact. The U.S. Department of Housing and Urban Development determines the Community Development Block Grant amount that the Parish receives. The proposed changes to the program will not affect the total amount of funding and will involve only the reallocation of resources.  
**Background:**  
St. Tammany Parish's Citizen Participation Plan requires a substantial amendment when funds are moved between eligible projects. These changes therefore require the modification of St. Tammany Parish's 2013 - 2017 Consolidated Plan and the 2015 Annual Action Plan.  
**Citizen Participation:**  
As outlined in St. Tammany Parish's Citizen Participation Plan, substantial amendments to the Consolidated Plan will be required when changes in the use of CDBG funds are proposed from one eligible activity to another or when projects are added or deleted

from the plan. When a substantial amendment is proposed, the Parish will provide citizens with at least 30 days notice prior to implementation of the amendment.

Notice of the proposed amendment will be published in at least one newspaper of general circulation. The Parish will consider any comments or views of citizens received in writing, or orally at public hearings. A summary of these comments and views will be attached to the substantial amendment.

The full Citizen Participation Plan is available on the Parish website at <http://www.stpgov.org/departments/hhs>

The Substantial Amendment will be available for viewing on the Parish website at <http://www.stpgov.org/departments/hhs> and at St. Tammany Parish Government Offices. Citizens who are unable to access the amendment should call 985-898-3074 to obtain an accessible copy of the amendment. St. Tammany Parish is soliciting input from citizens on the proposed Substantial Amendment. Citizens are invited to submit comments in writing:

**Via mail:**  
St. Tammany Parish Government  
Department of Health & Human Services  
P.O. Box 628  
Covington, LA 70434  
**Via fax:**  
985-898-3081  
**Via email:**  
SocialServices@stpgov.org

**Citizen Comments**  
will be accepted for inclusion in the substantial amendment from January 21, 2016 - February 22, 2016. Citizens who are unable to submit comments in writing are encouraged to call 985-898-3074 for accommodations.
